

Customers share
their success stories

“TakeON! gives us a chance to share our own opinions, suggestions and new ideas and *helps us to implement them in more efficient ways and much faster than it would normally take.*”

“Really love this aspect of the ON2net.
*Leaders being able to share info and
experience to help other leaders.*”

“Just finished a courageous conversation
I probably should have started 18 months
ago. I am honestly surprised at the **positive
response from my team members** and I am
now in a much better state of mind myself to
confront some other historical stuff as I try to
bring the team into a rapidly changing future.
I will leave work feeling really good today.”

“I’m continually trawling the ON2net for *stories and ideas* and this is one we will be taking on board.”

“Currently sitting at my desk reflecting on the fact that I feel *I have developed more as a leader in the last four weeks than my entire career previously.*”

I don’t think I was crap at my job before I just think I am operating so much more effectively now and have a confidence that I can not only operate this way in the future but that *I have the potential to be even better.*”

“Thank you for moving me from *my comfort zone into stretch*. I am loving it...”

“...in the current climate of significant change, uncertainty, hope and opportunity some of the key messages and the diagnostic tools from the Coaching for Success and Leading People workshop *have already proven to be invaluable.*”

“It shows how the ON2net can keep people motivated, hearing stories of others succeeding and their challenges re-emphasise the content learnt... *Love it...*”

“My wife gave me feedback the other day that the change she has seen in me since the Self-Awareness session has been *the biggest and most positive change since she has known me.* Acknowledging and eliminating some of my personal ‘roadblocks’ has meant that I am far more action-orientated and productive both at work and at home. I am happier, more relaxed, and this has had a positive impact on my health.”

“Support is everywhere on the ON2net – this is the safest place to *‘give it a go’* knowing that there is the support and encouragement from you all.”

“I’m grateful for all of the positive changes I’ve seen in the people I work with this year. *It’s as though someone has taken a massive paint brush and drenched the place in colour.* I’m surrounded by so many happy and engaged individuals, it’s truly amazing.”

“I don’t mind ‘putting my hand up’ as a strong advocate for the ON2net. The range of resources available and the community spirit that is enveloped within the ON2net *has for me personally been absolutely amazing!*”

“I was preparing (last minute) for a meeting today and needed some ideas and resources to use for the discussion. With the ON2net

I was able to quickly search and find ideas and materials that were exactly right to structure a great conversation with the team!”

“We are *encouraging ideas from 'all staff'*
and are open to change no matter what!”

“Yesterday [at our teamtalk] I had some very
mixed feelings about the participants...

I tried to analyse my feelings and have come
up with the following...

1 - I feel like a very *proud parent* (with tears
in my eyes) as I watched [X and Y] lead us
through the theme Managing Change.

2 - I felt like my children (participants) *don't
need me* anymore, sniff sniff.

3 - And I felt *proud* that they have morphed
into strong, confident, courageous *leaders.*”

“The team have identified that they’ve seen a buzz being generated in the business as a result of the teamtalks and **a focus on empowering people.**”

“I really enjoy getting on the ON2net and seeing how everyone is doing and being able to give and receive feedback, **share ideas and suggestions** and keep building momentum with each other. I’m hooked.”

“What a long way our team has come.
There were some **very open conversations**
today which would never have happened
12 months ago.”

“I’m really enjoying the ON2net and the
content it holds... **It’s a great place to have
powerful discussions** and to keep motivated.

The people on here make this place a great
place to share experiences and insights and the
encouragement I receive is empowering.

Thanks for creating this space and the great
work you do...”

“The culture is changing, there is more interaction with each other and *people are proactive about change, questioning things and not accepting things* for what they are.”

“I think everyone feels like we are working more closely together, we understand what our targets are, we work together to implement new ideas and this company has become a better place for it.

It's staff having *a real opportunity to influence how the business looks,* to contribute to the way they and customers experience us. It also 'feels' like a better workplace... it's a great endorsement for TakeON!”

“Silos are breaking down. Better working relationships are being built across areas.

Enthusiasm to make changes has increased. People’s ideas and opinions are being encouraged and heard. People feel more valued by the company.”

“This is why I am so grateful for the ON2net. **Finally the internet done right.** A forum for the sharing of information with the express purpose of helping people become better leaders, and in doing so, better human beings. I believe this is where the internet’s capacity to change the world for the better starts by upgrading the hearts and minds of it’s users. **People truly connecting with each other** and putting our collective experiences and perspectives together to help solve problems that we encounter everyday.”

“...there is a **positive vibe and attitude**, with plenty of new ideas and interactions.”

“Thank you all for the time and thought you have put into your responses. All feedback has been very helpful, and I welcome more. This is my first open request to the ON2net community and **I am both surprised and delighted** at the level of the response, what a great resource we have here, being the collective knowledge of all contributors. Thanks again.”

“The entire floor of IT Ops told me today that they see a *huge change in how we all talk to each other and collaborate.*”

“That is brilliant! *I feel a lot more prepared to tackle networking* (and just plain social events in general) *now armed with these great insights.* This is what I love about being on the ON2net.”

“One of my mates asked what all this ‘on-brand’ stuff was all about. I thought carefully about my answer... and said, “well, we got all of the key people from the (business) together and we explored ways to make (it) an even better place than it already is”. My mates all do different jobs, but they all work for big organisations like we do... and they all agreed that they **would love to have the same on-brand opportunity** where they worked. It seems that we are in the minority of organisations who are brave enough to be so self-analytical. And this is exactly why we will continue to be better than others!”

TakeON! IS A PROGRAMME FOR IMPROVING BUSINESS PERFORMANCE THAT GETS PEOPLE WORKING TOGETHER ON WHAT MATTERS MOST.

LEARN MORE AT:

 **TakeON.BIZ**

Tackle common business issues by guiding your managers and leaders through a configurable TakeON! programme made up of your choice of more than 50 themes. Then get those managers to facilitate their own structured conversations with their peers or teams.
